

THE GLEICHEN CALL

VOLUME 40 NO. 1

Published as second class mail
Post Office Department, Ottawa

GLEICHEN, ALBERTA, WEDNESDAY MARCH 19, 1947

SUBSCRIPTION \$2.00 PER YEAR

Town Council Appoint Committees

At the last council meeting an arrangement was made whereby Mr. Hinks was to take over the trail for picture show on Wednesdays and Saturdays instead of Fridays and Saturdays.

\$7,000 additional insurance has been placed on the Community Hall. It was thought that the contents were under insured. This matter is to be looked into.

The secretary treasurer was appointed assess to assess all parcels of property and business that were not on the roll in the previous year.

A letter from the Western Water Wells of Calgary was read. This was in connection with the drilling of a well for the town. Mr. Hamelin of the Western Water Wells is to be contacted and the matter goes into thoroughly before any drilling was started.

Following committees were appointed:

Finance committee—M. Murray and N. R. Anderson.

Community Hall—R. W. Brown and N. R. Anderson.

Fire, light and police—N. R. Anderson, Brown and T. W. Brown.

Irrigation, cemetery, etc.—W. R. Schmidt, M. Murray.

Waterworks—R. Hamelin, N. P. Anderson and W. Schmidt.

Public works—T. Brown, R. Hunter and R. Brown.

In The Legislature

BY GEO. E. BELL, M. L. A.

The debate on the budget was the highlight of activities in the Alberta Legislature last week. Premier E. C. Manning brought down the largest budget in Alberta's history, exceeding \$45,000,000.

Considerable additional grants are seen in every department, with Education and Public Works getting the most dollars.

The premier's address showed an over-all increase of \$88,000,000 in the price value of agricultural products for last year. The only important decrease in agricultural production was a \$15,000,000 decrease in hay value.

There were 1,700,000 fewer hogs marketed in Alberta last year than in 1944.

Livestock feeder associations last year handled more than 70,000 animals valued in excess of \$1,000,000.

Treasury branches show slow price progressing \$20,000,000, which was an increase of \$5,500,000 last year. The year's surplus on operations was \$45,800.

Value of natural resources produced more than an increase of \$10,000,000. More than \$400,000 feet of natural gas was drilled last year with \$450,000 spent by drilling companies.

There has been much talk of the government having a \$10,000,000 surplus this year. Here are the facts:

There was an over-all surplus of \$10,310,886.61. Of this amount, more than \$2,000,000 was in the form of redeemable savings certificates; \$18,000 was to be paid on treasury bills held by the Dominion Government; and twelve and one-third million dollars was used for debt retirement and adjustment payments arising out of debt re-organization. This was partially offset by accounts payable of \$883,000, which left an overall deficit of \$2,987,797.15 which came out of the so-called accumulated surplus of past years.

It is not possible in this short space to deal with all aspects of the budget with a wish to deal with the treasury bills of the province, and hope that at a later date I may deal in more detail with the debt re-organization programme.

The total indebtedness of our treasury bills is \$26,500,000, bearing 6 percent interest. This is made up of (a) Dominion advances for direct provincial relief—\$10,895,000; and (b) Dominion advances for purposes other than relief—\$15,605,000. The Dominion government agreed to cancel 50 percent of the relief bills, or \$5,447,500, and to charge no interest on the balance of the treasury bills for relief.

The Province of Alberta will retire \$7,997,150 of non-relief interest bearing treasury bills. This will be paid by applying the award on natural resources made in 1935 by the Royal Commission. This award by the Royal Commission to Alberta was \$5,000,000 in 1935, at 5 percent interest for five years, and an interest rate of 4 percent thereafter.

The new position then is that our treasury bill debt will be reduced by \$15,292,150, and the balance owing will be \$11,207,850, of which \$3,297,500 will bear no interest and will be amortized over thirty years. The remaining \$8,000,000, bearing interest at two and five-eighths per cent. The province's annual cost, including principal and interest, will be \$547,000. The province has been paying \$788,000 in interest alone on the treasury bill indebtedness. Our annual debt service charge on treasury bills will be reduced by \$241,000, and in thirty years there will be no debt.

Through the courtesy of the editor of this paper, I will give more details on certain aspects of the budget next week.

The Debate on the Budget Speech was concluded by Premier Manning on Friday Night last.

Notes of Last Legion Meeting

The Canadian Legion held one of its regular meetings in the Legion Hall and it was well attended.

The report of the furniture committee indicated that two Chesterfields and chairs had been bought and a third one had been donated by one of their members, a Mr. U. A. Jones of the Canadian Pacific Railway station.

There is still room for others, and it was suggested that anyone having a surplus of furniture get in touch with the secretary at telephone No. 7. They had purchased the radio and phonograph. A hearty vote of thanks was extended to Mr. Jones for his donation of the very nice Chesterfield suite. It was thought that this was a fine gesture as veterans from far and near could come and enjoy a pipe or a drink while lounging on the Chesterfield. It was also suggested that a letter of thanks be put in The Call thanking the Peoples Committee for the donation of the Chesterfield suite for their very fine donation to the Legion.

The matter of organizing a Women's Auxiliary was discussed and it was thought to be a very fine idea, and it was suggested that the women be invited to the meeting on April 2 when the matter would be further gone into. It was also suggested that the committee be organized on the hall and contents receive attention.

Edgar Taylor was appointed caretaker of the hall and during the severe weather was requested to keep a little heat in the hall. A vote of thanks was extended the first vice president for the work he had done in assisting to renovate the hall which was now considered to be in good shape.

Equipment purchased is as follows: two sets of sweaters; golf pads; gloves and stick; first aid kit.

Our thanks must also be handed to the sports promoters of the town for the fine support we received in connection with transportation.

We would have very much liked to have played our final games at home but it was impossible due to the fact that we have not yet had our own water system that this will be possible. Citizens we thank you again one and all.

N. R. MATHISON, Secy.

School Hockey Clubs Thank Their Supporters

The Gleichen School Hockey Club would like to take this opportunity to thank the citizens of Gleichen, one and all, for the support we have received from you this season.

The contributions last fall were very much needed and well made through the efforts of the club. Functions of the two clubs would have been all without these funds.

Equipment purchased is as follows: two sets of sweaters; golf pads; gloves and stick; first aid kit.

Our thanks must also be handed to the sports promoters of the town for the fine support we received in connection with transportation.

We would have very much liked to have played our final games at home but it was impossible due to the fact that we have not yet had our own water system that this will be possible. Citizens we thank you again one and all.

N. R. MATHISON, Secy.

Recreation Centre

Gleichen Memorial Recreation Centre will be completed this summer.

Plans are now being made to canvas the remainder of the town and district to finish financing the issue.

Up to date \$25,744 has been donated by the citizens of the town and district and this has been turned into lumber for the building. The building will be 78 feet long and 36 feet wide with no posts on the inside to interfere with making full use of the building.

The Memorial Centre will be for curling in the winter time, over-land, vegetable and possibly roller skating in the summer.

So the committee ask all good citizens to see to it that your contribution gets in so that the organization can get on with the job as the Centre will be a great asset to the people in this area for years to come.

Make your contribution to Bob Brown, Bill Blaney or George McLean.

Many hands make light work so let's all get together and keep our town ahead of the rest.

Town and city schools have been able, during good times and bad, to maintain their schools at a satisfactory level of proficiency. The fact that such of these communities represent a certain concentration of wealth on which funds for school purposes can be levied with some measure of ease will explain this. These centres have been well satisfied to receive rather than assistance from the provincial treasury, while rural areas with smaller money resources have received much greater aid.

The provincial government has the Alberta Educational Council to have the provincial government finance elementary and secondary education to 50 per cent of its cost does not mean that all schools in the province would, were such a reform introduced, have half of their costs transferred to the government. It means rather that on an over all basis financial assistance from general revenue would be raised from the present rate of 22 percent to 50 percent. The great bulk of the additional money thus provided by the government would go to rural and village areas. Cities like Calgary and Edmonton might look forward to grants equalling 15 to 20 per cent of their costs in place of the present 5 or 6 percent, while other localities might receive 75 to 90 per cent assistance. The basic purpose of the effort of the Alberta Edu-

Saturday afternoon at the Victoria Arena, was the scene of a fast game between Gleichen and Acme. P. Yellowley paced Gleichen with 3 goals to a goal of 7 to 4.

The Bow Valley League was organized last fall by the teachers of the following centres: Strathmore, Camalgan, Catherine, Blainey, Acme, Arrowwood and Gleichen.

Many Gleichen fans travelled to Calgary to support the local team. The crowd was largely composed of Acme and Gleichen fans and a few of the Calgary Gladiators.

The cup was presented to Captain J. Barabash by the League President W. Crellin.

The teachers had their pictures taken at the arena. The cup and the picture will be on display in one of the Gleichen premises.

Gleichen goals were made by: P. Yellowley 3; G. Cameron 2; C. McKay 1; and J. Barabash, 1.

Gleichen penalties: P. Yellowley, 1; five minute major penalty and H. Blaney, 1.

Acme goals: E. Cory 2; H. McKay 2; N. Cory 2. Penalties: E. Cory and McKay, 1.

Gleichen lineup: Goal, L. McLean; defence, L. Hiddell, A. Mathison, S. Anderson, B. Blaney, D. Davies, B. Phyllis; forwards: G. Cameron, J. Barabash, Mathison, P. Yellowley, C. McKay and R. Savoury. Coach, J. Lester, manager, J. Wright.

Officials: A. Robertson, time; M. Service, goal judge.

Acme lineup: Goal, L. McKay; defence, F. Nolan, I. Ferguson, M. Brown, forwards, B. Green, E. Cory, N. Cory, McKay, H. McKay, G. McKay and J. West.

Referees were: J. Crellin, Strathmore and Mr. Terrie, Blainey.

Summary: First period, Gleichen, 1 Yellowley, Acme 1, E. Cory, P. Yellowley, Acme, Cory. Second period, Gleichen, 2 Cameron, C. McKay, Yellowley 1, Barabash 1, Acme 2, N. Cory 1, H. McKay 1, Penalties, Gleichen, Blaney, Acme, McKay.

Third period, Gleichen 1, P. Yellowley, Acme 3, E. Cory 1, N. McKay 1, H. McKay 1. Penalties, Gleichen, Yellowley.

St. Patrick's Day passed in Gleichen without a sprig of shamrock to be seen. The day was mild and water from the melting snow ran for torrents and more everybody had a pickup or shovel which they used in an endeavor to make the running water run in the direction it should. There are no reports of flooded cattle although in several instances some water did seep in.

RICH STRONG DELICIOUS

A Need For Planning

THERE HAS BEEN NO grave unemployment problem in Canada since 1939, on the contrary, there have been acute labor shortages in many industries. It was feared for a time that when the armistice was signed, demobilized there might be a period of serious unemployment, but this has not been the case and reports indicate that the demand for labor has remained at a high level. There are some Canadians, however, who do not recall the difficult times which were experienced here in the nineteen thirties, and few who do not wonder whether such times may come again. Unfortunately it is not always possible for a country to control the underlying causes of a depression, but experience has shown that it is possible to avoid much of the hardship and distress which results from unemployment, by careful planning for the future.

Planned Public Works Project

One obvious way in which employment could be provided during a major depression would be through the planning of large public works projects, both by the provinces and by the Dominion government. Such a program would be in the nature of a public investment and would necessitate the spending of large amounts of public money. This subject has been considered by the Dominion government and plans for possible projects have been discussed. The plans have to do with the conservation and development of natural resources which are not being developed by other agencies, and with projects in the Northwest territories, the Yukon, Indian reservations and other areas which come under the control of the Dominion government. The work to be undertaken would include the development of natural resources, surveying, mapping, soil conservation, drainage, insect control and many other undertakings.

Would Require Many Workers

Such a program would require a large number of workers including engineers, scientists and skilled laborers. It is estimated that public funds amounting to 700 million dollars would be needed to finance public works projects which, with the family allowance and other social security measures, would safely carry the country through a major depression. The raising of such a sum brings up the controversial subject of taxation and of Dominion-provincial agreements on that question. However, it is considered by those who have thought about the matter and it is to be hoped that in the event of another depression some plan will be in readiness to prevent the misery and waste which arises from prolonged and widespread unemployment.

MONEY TURNING UP THROUGH BLIZZARD

DE FOREST, Wis.—Mrs. Clement Wolfe doesn't believe in fairies but almost everywhere she looks—under a pillow, behind a mirror, beneath a wash—she finds money.

Dollar bills have turned up in cupboards, little stacks of silver on shelves, and half dollars tucked away everywhere imaginable. In the one week Mrs. Wolfe found between \$60 and \$70 and she still is finding more. She blames it all on the more than 40 unexpected guests who spent from two to three days with her in a recent blizzard. They came by the carloads and finally by the busloads as their vehicles became snowbound.

When the guests finally were regaled they tried to pay their hefty bills but she would have none of it.

"But I guess some of them didn't," sighed Mrs. Wolfe as she lifted a dish and found a couple more dollars hidden away.

NEW PATROL BOMBER FOR U.S. NAVY

WASHINGTON—The United States Navy recently opened the door on its newest heavy patrol bomber, the Martin XPBM-1, which packs a dazzling burst of speed in a pair of extra jet engines and a cruising range of more than 4,000 miles.

It is a four-engine craft which resembles a huge twin-engine plane because the jets are mounted directly behind two of the largest 3,000 horsepower conventional engines now in existence.

Capable of cruising at more than 200 miles an hour, the bomber can boost its top speed to "well over 300 miles per hour" with a flick of the jet power, the Navy said.

The new jet giant is equipped with tricycle landing gear, has a wing spread of 214 feet and is "very heavily armed." It was turned "one of the most completely electronically equipped aircraft ever made." It carries a normal crew of eight.

FUNNY And OTHERWISE

The colored private, a passenger on the ship going across the ocean, was told to wash his face and was being killed by one of his buddies.

Bookie: "You'll be just a hand-lubber."

Negro Private: "Dat's right, dey ain't no argument here, I'm a handlubber and I've jes' findin' out how much Ah loves it."

When he returned home after being "detained at the office" hubby received a very frosty welcome.

"Why this sudden change, darling?" he said in bewilderment.

"Only this morning you said you loved my hair."

"Perhaps I did!" snapped the lady. "But that doesn't include every hair on your head."

The angler had just landed a fish when the inquisitive woman chanced to be passing.

"That's a real catch," exclaimed, "that poor little fish."

The angler replied: "Well, madam, if he'd kept his mouth shut to stay with me in another district for safety's sake."

Two days later the parents received the following telegram:

"Am returning to your boy. Send the earthquake!"

"And does your husband," asked the Irish mother, "still kiss me mornings when he leaves the house?"

"He does, indeed," replied the bride. "If he did not he'd be in no condition to go to work."

"Is it true that it cost \$100 to have your family tree looked up?"

"Well, not exactly—\$5 to have it looked up and \$95 to have it hushed up."

Once again the sergeant was going over his instructions to a rather timid recruit taking his first turn of duty as a sentry.

"Understand this," he snapped. "If anything moves, you shoot!"

"Yes, sergeant," replied the recruit, speaking firmly for once; "and if anything shoots, I move!"

Personal Flag Of Princess Elizabeth

Princess Elizabeth took her to South Africa her own flag. This is Elizabeth's personal flag, granted to her by the King and specially designed for her. Few people recognize it yet, as it has so seldom been flown in public.

The first time it appeared was when she launched the battleship H.M.S. Vanguard in 1945. This is the ship in which the royal party travelled.

The princess' standard has as distinctive touches a small St. George's cross with a Tudor rose on a white ground in the centre.

SAYS POTATO VITAMINS WASTED BY CANADIANS

TORONTO—Every year in Canada there is more vitamin C thrown down the sink than the amount contained in all the citrus fruits we import, Dr. L. B. Pett, chief of the Nutrition Division, Department of National Health and Welfare, said in an address to the annual meeting of the Ontario Crop Improvement Association.

Dr. Pett blamed much of this waste on the way potatoes are cooked. He said this important food is usually cooked too long, in too much water or at too high a temperature, with the result as much as half the minerals and vitamins are lost.

COUPONS ACCEPTED

Agriculture Minister Gardiner said in the commons the government still is accepting any ration coupons which Canadians wish to turn in as a step in providing more food for the hungry people of Europe.

SWEETER White Bread

RECIPE

Put 1 c. lukewarm water in bread bowl, add 1 envelope Royal Fast Rising Dry Yeast and 1 tsp. sugar; stir; let stand 10 min. Scald 2 c. milk, add 5 tsb. sugar; add 5 tsp. salt; cook to lukewarm. Add to yeast with 1 c. water; add 6 c. sifted flour; beat well. Add 5 tsb. melted shortening and 6 c. more sifted flour, or enough to make easily handled dough. Knead dough quickly and lightly until smooth and elastic. Place dough in greased bowl; cover; set in warm place, free from draft. Let rise until doubled in bulk. Punch dough down in bowl; let rise again until about 1 1/2 as high as first rise. When light, divide into 4 equal portions; shape into balls. Cover with cloth; let rest 10 to 15 min. Shape into loaves; place in greased bread pans. Cover; let rise until doubled in bulk, about 1 hour. Bake in 425° F. oven for 15 min., then reduce heat to 375° F. Finish baking about 30 min. longer.

SUGGESTED SERVICE FOR TRAVELLERS

The "properly equipped" railroad station should fairly jangle with nickel-in-the-slot gimmicks, and others that contain larger coins, exhibitors at the Coin Machines Industries, Inc., convention in Chicago said.

A traveller, among other things, should be able to get his shaving needs, a press for his rickety, a shille for his shoes (a nickel each), his railroad ticket, a toothbrush, a comb, a soap, a tin of tooth powder, a tin of hair cream, a tin of hair pomade, and an electrically-heated hot dog (no mustard) — all by means of coin machines.

The long-billed curlew has a book seven inches long.

"Ah-h-h! I Can Breathe Again!"

If your nose keeps running, use Vicks Vapo-Rub. It's the only medicine that gives you relief in 10 minutes. It's the only medicine that gives you relief in 10 minutes. It's the only medicine that gives you relief in 10 minutes.

The width of the Panama Canal limits the beam of some naval vessels.

PATRONAGE DIVIDENDS

The Pioneer Grain Company has paid patronage dividends for the years ending 1942, 1943, 1944 and 1946. We will pay a patronage dividend for 1945 in a short time, if our earnings permit we intend to pay a patronage dividend for this crop year, so for better service and returns.

Deliver Your Grain To PIONEER GRAIN COMPANY LIMITED

Good Roads MEAN MILLIONS To Alberta

The tourist trade is estimated to have brought nine and a half million dollars to Alberta in 1946, about one and a half times the Provincial expenditure on roads (\$5,605,950 est.) for the year.

This tourist income can be multiplied as soon as we provide the kind of all-weather highway system that makes tourist travel easy and pleasant. And we need such roads for our own use and in the interests of our own progress.

The Alberta Government is to be commended on its recently announced outline of a \$9,500,000 highway program for 1947. If this program is carried out and repeated over a period of years, we will have roads worthy of Alberta and worth a great deal more than their cost to us.

ALBERTA MOTOR Association

EDMONTON CALGARY (THIS ONE)

Farmers Bonspell

The Farmers Bonspell played last week proved to be a very successful affair when eighteen rinks were entered.

This spell was just a little different than the others staged this winter. The third man acted as skip while the skip played lead which made the game interesting by having every body play a different position then they are accustomed to.

The prizes were four hams; four sacks of spuds; eggs; chickens. This winter saw five bonspells on the local ice namely: Open spell; Mixed Spell; Ladies' Spell; Local Spell; two days; Farmers Spell, two days.

HERE AND THERE

Mrs. Eli Woods is in Calgary visiting her son Leonard and family.

Mr. and Mrs. Ralph Ragan of the Blackfoot Reserve have moved up north near Edmonton where Mr. Ragan will assist in an Indian agent's office.

Miss J. Kidd who has been on the nursing staff of the Blackfoot Reserve for some years has been promoted to district nurse for the Indian reserves of Sarcee, Morley and Blackfoot. She commenced her duties last week.

Before winter set in last fall the town had most of the streets gravelled. During the past few days this gravel has proved its worth to car drivers driving over the muddy streets. About the only time a car becomes stalled is when it is driven off the gravel.

C. Hoff has purchased the old Koeft farm from A. Johansen. This farm consists of a section of land and is considered to be one of the best pieces of land in the district. Mr. Hoff

plans to erect buildings on the place as soon as he can find time to get around to doing so.

Alex. Murray of Lethbridge was in town for a few days last week looking after his father's affairs, as Mr. Murray, Sr. has been ill.

Leith Gilbart left Monday morning for Goldbridge, B.C. where he has accepted a position as electrician at the gold mine there. Gleichen will soon be well represented at Goldbridge as Buck Menard and Cam Evans are already located there. Judging by the reports sent back the latter two boys like their new location.

People who think they will profit from last year's mistakes often find the problems of today are quite different from those of a year ago.

A report from London states that several hundred Canadian servicemen have left forgotten balances in British banks. Local veterans would be well advised to check up on their accounts.

What Does A Bank Mean To You?

A Friendly Neighbour

Stop and think how close a neighbour a bank really is. And how friendly and useful a neighbour. You can use it to cash a cheque, make a deposit, pay a bill, obtain a loan, and perform other banking jobs. A bank is as essential to the welfare and progress of your community as the local drug and grocery stores, church, school, police and fire stations. Over 500 branches of The Canadian Bank of Commerce serve you in cities, towns, villages and hamlets right across Canada. You can consult our local Managers any time.
